HEALTH & HUMAN SERVICES
Pathways to Healing Program

The Pathways to Healing Program provides advocacy services to self identified or enrolled Native Americans or Alaska Natives and their families. Services include, but are not limited to, cultural, legal and general advocacy, safety planning, emergency services, transitional housing, information and referrals. It is Pathways to Healing's mission to honor traditional values and beliefs that promote safety and well being for Native American families by providing a holistic approach to inform, educate, and heal our communities affected by violence.

It is one of Pathways to Healing's goals to ensure safety for clients and their families. The Donation Center is a way you can give back to the community and help individuals build a safer and healthier life for themselves and their families.
