The following corrections, clarifications and/or deletions to the RFP are hereby made a part of said documents.

This addendum consists of Three (3) pages, includes signature page.

ADDENDUM NO. 1

### QUESTIONS AND ANSWERS

1. We noticed that the RFP stated potential work on a Priority Climate Action Plan (PCAP). Can you confirm whether part of this project is funded through the EPA CPRG program?
  - a) Department of Commerce has awarded the Cowlitz Indian Tribe funds to support our Tribes Green Energy initiatives.
2. Are you able to provide more specific information about the number and type of projects that would be included under this scope?
  - a) The Cowlitz Indian Tribe is looking to contract with an organization that can provide technical services to support the Climate Commitment Act initiatives. Technical service should include experience with having in depth knowledge of green energy products such as Solar Power, E/V Charging Stations, Electric Vehicles, Backup Batteries, Hydrogen etc. We may need assistance in technical writing, such as support letters, letters written to set up government to government meetings discussing green energy projects, but not limited to.

3. Given that the scope of the RFP is for multiple projects, are bidders able to submit proposals for a specific portion of work? For example, our firm (Sustainability Solutions Group) can provide climate planning support services specifically.

a) Yes
